## Abstracts

Baby and child-specific products turned in a positive performance in Vietnam in 2023, despite potentially challenging demographic trends. The country's birth rate has been falling in recent years, with the Department of Population reporting an all-time low in 2023. At the same time, however, disposable income levels have improved and Vietnamese parents are increasingly willing to invest in their children, leading to higher demand for baby and child-specific products. Throughout 2023, volume sale...

Euromonitor International's Baby and Child-specific Products in Vietnam report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
