## Abstracts

In spite of high inflation, both dried baby food and milk formula is expected to register an increase in current value and volume sales. A rising birth rate supports the increase. Value sales for prepared baby food still remains negligible, as it is deemed too expensive for most consumers.

Euromonitor International's Baby Food in Kenya report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.

Product coverage: Dried Baby Food, Milk Formula, Other Baby Food, Prepared Baby Food.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
