## Abstracts

Baby food packaging recorded a decline in total volume sales in 2020 due to the lifestyle changes associated with the COVID-19 pandemic and the restrictions brought in to try and contain the spread of the virus. With consumers facing strict national and local lockdown measures across Spain, they tended to shop less and stayed indoors more, which restricted purchases of baby food products. Many parents were also benefitting from the extra time spent at home in 2020, giving them the ability to fee...
