Abstracts

Retail sales of bags and luggage registered a vastly improved performance in both volume and constant value terms in 2023, when compared to the previous year. As the country emerged from COVID-19 crisis, Indonesians became increasingly keen to travel, despite rising costs. Indeed, the term “revenge travel” was coined in response to the renewed interest of consumers in taking exotic trips that were put on hold during the pandemic. This fuelled demand for luggage, especially cabin-sized suitcases.

Euromonitor International's Bags and Luggage in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2019-2023), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Bags, Luggage.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Bags and Luggage market;

Pinpoint growth sectors and identify factors driving change;
