Price: US\$ 990.00 (Single User License)

ID: BAC21C04201EN

Abstracts

Since the pandemic, retail unit volumes of baby food packaging have consistently declined. During the pandemic, mothers – particularly working mothers – had greater time to spend at home looking after their children, and this left them with more time to breastfeed. In 2022, after the restrictions of the pandemic were withdrawn, volume sales continued to suffer as the Saudi government continued to promote breastfeeding as opposed to using milk formula, even imposing bans on the promotion of milk...

Euromonitor International's Baby Food Packaging in Saudi Arabia report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
