Abstracts

Costa Rica's inflation is the highest in Central America. The year-on-year inflation measured by the consumer price index (as of August 2022) is 11.48%, according to the National Statistics Institute (INEC). Inflationary pressure increased further in the second quarter of 2022, and the rising cost of living resulted in most consumers becoming more cautious spenders, focusing on essential items and increasingly on price.

Euromonitor International's Beauty and Personal Care in Costa Rica report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
