Abstracts

2022 saw demand under some pressure due to a far more controlled attitude towards spending among the local population amidst the spectre of inflation and a significant increase in the cost of living. After a strong recovery in economic activity during 2021 as GDP growth climbed to more than 7%, the growth performance of Morocco's economy stood at just 1.3% in 2022, due in no small part to the unfavourable economic situation, especially for the important agricultural sector, which has been strong...
