Abstracts

As in many industries, most categories of beauty and personal care in the Netherlands saw a strong increase in retail current value sales in 2023. However, this growth mainly came from high inflationary pressure on prices, with retail volume sales decreasing in most categories at the end of the review period. The overall decline in demand was impacted heavily by higher prices for products. However, this performance was also informed by the stabilisation or correction of market sizes following hi...

Euromonitor International's Beauty and Personal Care in Netherlands report offers a comprehensive guide to the size and shape of the market at a national level.
