# **Abstracts**

Beauty and personal care in Vietnam in 2023 continued to benefit from the economy's recovery. Though inflation was high early in the year, it did slow down. Vietnamese people generally maintain conservative monthly budgets and prioritise basic functional products but are still willing to spend extra money for good-quality items within beauty and personal care, and in 2023 many were able to increase their spending on such items across multiple categories.

Euromonitor International's Beauty and Personal Care in Vietnam report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
