Abstracts

Better for you beverages registered flat value growth and a decline in volume sales, after the bumper years in 2020, when due to strict lockdowns and foodservice disrupted, retail channels experienced significant growth in value and volume sales. While certain products registered value growth, reduced sugar carbonates accounts for the majority of value sales within better for you beverages and it registered flat growth in 2021. All the same, companies continued investing in reduced sugar and sug...

Euromonitor International's Better For You Beverages in Ireland report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.
