Abstracts

In 2021, better for you beverages posted positive but slower retail volume growth, compared with 2020, while a significant increase in the average retail unit price informed a faster increment in retail current value sales terms. The positive performance of better for you beverages was mainly due to increasing awareness of the health benefits of consuming beverages with a reduced sugar content. The Coronavirus (COVID-19) experience in Saudi Arabia heightened awareness of health and wellness and...

Euromonitor International's Better For You Beverages in Saudi Arabia report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.
