## Abstracts

Throughout the review period consumers were turning away from processed foods and towards whole natural foods due to increasing health concerns. In 2020 better for you packaged food posted stronger retail current value growth than was seen in 2019, due to increased consumption at home. In 2021, we see a normalisation of this growth pattern, with demand remaining at the same level as in 2020. Belgians choose better for you packaged food especially when it is for their children. For example, in 20...

Euromonitor International's Better For You Packaged Food in Belgium report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.
