Abstracts

As the difficult economic situation in 2015 was still affecting consumer budgets, frugality became very important to Slovenian consumers and therefore they tended to exclude all non-essential products from their shopping lists. Biscuits and snack bars are perceived as non-essential, indulgence products. Furthermore, the prevailing health and wellness trend does not benefit the category development as sweet sugar-containing products are perceived as unhealthy, which is impacting demand.

Euromonitor International's Biscuits and Snack Bars in Slovenia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2010-2014, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues. Forecasts to 2019 illustrate how the market is set to change.

Product coverage: Biscuits, Snack Bars.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
