## Abstracts

Retail sales of bookings continued to grow strongly in constant value terms in 2023. This rebound was driven largely due to pent-up demand, as well as strong growth in domestic tourism and the rising popularity of staycations by domestic travellers. While there was a notable rebound in international arrivals from Europe and North America, booking demand from other countries, particularly China, was slower to recover.

Euromonitor International's Booking in Philippines report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2018-2022, allowing you to identify the sectors driving growth.
