Abstracts

Business services continued to rise rapidly during 2018, reflecting robust business activity growth in the country. The expansion was in large part fuelled by a major improvement in ease of doing business in recent years, facilitated by the government's reforms to reduce regulatory burden (of starting a company, getting credit, etc.) and other business-friendly efforts (an establishment of the special economic zones). Thanks to this, local companies significantly raised their capital investments...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Business Services market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.
