## Abstracts

New Zealand is one of the world's major dairy producing nations, and consumers in the country have a strong affinity towards dairy products like butter. However, historical health and wellness concerns over the fat content in butter, as well as convenience trends, have seen a shift in consumer preferences, with margarine and spreads holding a significantly larger share of retail value sales. Following on from their success in other dairy categories, a number of local artisanal players entered bu...

Euromonitor International's Butter and Margarine in New Zealand report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2012-2016, allowing you to identify the sectors driving growth.
