Abstracts

Sales of butter and margarine struggled in the face of rising concerns from Spaniards regarding their health and diet and increasing preference for healthier products, with many Spaniards preferring to use olive oil on their toast or when cooking instead of butter and margarine. There is also some confusion among Spanish consumers regarding vegetable fat and margarine, with many concerned about the safety of these products and the risks associated with the consumption of margarine containing...

Euromonitor International's Butter and Margarine in Spain report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2012-2016, allowing you to identify the sectors driving growth.
