Abstracts

Butter and spreads continue to witness decline in retail volume sales due to price inflation. Butter was among the food categories with the highest price growth in 2022 as players faced soaring costs. Retail prices continued to increase in the first half of 2023 due to insufficient raw materials, together with higher production and import costs. Nevertheless, current value growth is considerably lower than in 2022.

Euromonitor International's Butter and Spreads in Bulgaria report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.

Product coverage: Butter, Cooking Fats, Margarine and Spreads.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
