Abstracts

Butter is set to decline in retail volume terms in 2023, due to the impact of inflation, which has been driving up unit prices. The price of butter had been stable over the last few years, as many products, such as Meiji Hokkaido Butter, are locally sourced, and had not been affected by supply issues. However, the unit price of butter finally saw a rise in 2023, due to the challenging financial situation of dairy farmers, and with more consumers becoming budget-minded, this led them to limit the...
