Date: September 2023

Pages: 16

Price: US\$ 990.00 (Single User License)

ID: B493A4806F3EN

Abstracts

Retail volume sales of butter and spreads are expected to decrease during 2023, reflecting the declining population and the general trend of consuming less bread. Despite its declining average unit price, retail volume sales of the largest category, butter, recorded a slight decline in 2023 as its price is still higher than more affordable options including margarine and spreads. Cooking fats, meanwhile, remained a small and relatively insignificant category in the year.

Euromonitor International's Butter and Spreads in Latvia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.
