Abstracts

Butter and spreads demonstrates improved volume growth in 2023 compared to the previous year, rebounding slightly after a decline in 2022. Despite this positive trend, the presence of persistently high inflationary conditions throughout 2023 hinders a more substantial growth rate. Although unit prices for various categories witness a slower increase than in 2022, the inflationary pressures still exert a significant influence. The challenging economic climate, marked by elevated inflation that cu...
