Abstracts

Caffeinated products is a dynamic growth area in beverages, as the consumer need for effective energy outweighs rising concerns about stress and anxiety. This fundamental tension, however, means that as caffeine consumption grows, increasing attention will need to be paid to the mitigation of caffeine's negative side-effects.

Euromonitor International's The Caffeine Paradox: Energy, Anxiety, And the Future of Caffeinated Beverages global briefing offers an insight into to the size and shape of the Soft Drinks market, highlights buzz topics, emerging geographies, categories and trends as well as pressing industry issues and white spaces. It identifies the leading companies and brands, offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change and criteria for success. The analysis can focus on value and volume for both off trade and on trade.

Product coverage: Asian Speciality Drinks, Bottled Water, Carbonates, Concentrates, Energy Drinks, Juice, RTD Coffee, RTD Tea, Sports Drinks.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
