Date: July 2015

Pages: 31

Price: US\$ 990.00 (Single User License)

ID: CC62A289505EN

Abstracts

South Koreans tend to perceive chilled processed food products as being “fresher” and therefore healthier or more nutritious than frozen and canned/preserved alternatives. Accordingly, rising health awareness helped to sustain robust growth in chilled processed food consumption and packaging volume sales in 2014. Packaging volume sales were further bolstered as the trend towards busier lifestyles continued to strengthen consumer appreciation for the convenience of chilled processed food...

Euromonitor International's Chilled Processed Food Packaging in South Korea report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
