## Abstracts

While cigarettes were recording a second year of positive growth in 2022, boosted by further normalisation post-pandemic, enabling a fuller return of mobility, inbound tourists and social lives, there was a mixed picture in the newer alternatives to traditional tobacco. E-vapour products were hit by the raft of new regulations on these products in China, while heated tobacco continued to thrive, helped by the region housing the biggest market for these products globally: Japan.

Euromonitor International's Cigarettes and Alternative Nicotine Products in Asia Pacific global briefing offers an insight into to the size and shape of the Tobacco market, highlighting major industry trends and categories as well as the factors affecting operating environment. It identifies the leading companies and brands, offers impartial, strategic analysis of key factors influencing the market - be they new product developments, legislative restrictions or pricing influences. Forecasts illustrate how the market is set to change and where it is headed.

Product coverage: Cigarettes, Cigarettes (Illicit+Legal), Cigars, Cigarillos and Smoking Tobacco, Smokeless Tobacco, E-Vapour Products and Heated Tobacco.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
