Abstracts

Traditionally, Nigerians did not smoke cigars, except those who had travelled abroad, so sales within the country were insignificant. With the increase in the number of Nigerians travelling to Europe and North America, many of whom settle down but then return home later, cigar smoking in Nigeria has begun to increase. The expatriate population in Nigeria, which increases yearly due to the oil industry and growth in construction, is also a key consumer base for cigars.

Euromonitor International's Cigars in Nigeria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2010-2014, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be the new legislative, distribution or pricing issues. Forecasts to 2019 illustrate how the market is set to change.

Product coverage: Cigarillos, Cigars Excluding Cigarillos.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
