Abstracts

Clean label has become more pertinent in recent years and claim visibility has become more essential with the rise of e-commerce. The definition of clean products is also nudging past the limits of health and nutrition to cover a more holistic perception of wellness, including food safety and transparency. This report showcases case studies of how category growth is bolstered by the introduction of clean products and how companies tap into claims for a competitive edge.

...

Euromonitor International's Clean Label: From Health to Transparency global briefing offers an insight into to the size and shape of the Packaged Food market, highlights buzz topics, emerging geographies, categories and trends and identifies the leading companies and brands. It also offers strategic analysis on driving packaged food industry trends like health and wellness, premiumisation, convenience and value-for-money and how those trends influence factors like new product developments, packaging innovations, retail distribution and retail pricing both historically and into the future.

Product coverage: Cooking Ingredients and Meals, Dairy Products and Alternatives, Snacks, Staple Foods.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
