Abstracts

In recent years, the clean label trend has been an ever growing influence within the food industry. One category where this is certainly true is confectionery, which has seen major formulation alterations as manufacturers have been encouraged to remove artificial additives and make products simpler. As the allure of clean label products shows no sign of abating, confectioners are increasingly being forced to take new initiatives to show they are industry leaders when it comes to clean label...

Euromonitor International's Clean Label in Confectionery: Influencing Ingredient Inclusion global briefing offers a comprehensive guide to the Ingredients market at an international level. It highlights the major drivers behind ingredient supply and demand, provides detailed analysis of the individual ingredient categories and the product categories they are used in. It also examines regional prospects, highlighting opportunities and challenges in ingredient usage.
