Abstracts

Coffee consumption registered an increase in 2010, following the 2009 flat growth rate in volume terms: the recession did not significantly affect the category and Italians turned out to be unwilling to renounce their coffee treat, neither at home, where the category showed a 2% increase in volume, or outside in bars, where the negative trend moved up to a slight 1% decrease from a much more significant negative growth rate in previous years. It is worth noting that coffee is a very mature...
