Abstracts

The MEA region remains divided in terms of sustainability, as Africa continues to lack the financial means to reach Middle Eastern levels in terms of electrification, as well as food and water availability. While Africa benefits from the lowest pollution globally, air, water and municipal waste-induced contamination remain dire issues in the Middle East. The impact of global warming is intensifying throughout the whole region, exacerbating its exposure to climate hazards.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
