The computers market has been struggling for the past several years, as more consumers have shifted towards smartphones and tablets over traditional desktops and laptops. At the same time, more people have hung onto their computers longer, rather than upgrading them frequently. The market for desktop computers and laptops faced another tough year in 2017. Tablets have become quite popular thanks to their extreme portability, easy to use interfaces and wide range of functions.

Euromonitor International's Computers and Peripherals in Saudi Arabia report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
