Abstracts

Confectionery packaging recorded declining unit volumes in 2020, with particularly bad performances being seen in most of the chocolate confectionery categories in this year. Sales suffered as impulse and on-the-go consumption was hit by severely reduced mobility, with consumers spending a lot of time at home due to the COVID-19 restrictions. This was adding to confectionery's existing problems, such as consumers turning away from products with a reputation for being high in sugar. Although the...

Euromonitor International's Confectionery Packaging in Switzerland report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
