Abstracts

Most areas of chocolate confectionery continued recording strong growth in 2020, in spite of the pandemic, with further positive growth being seen in 2021. For example, tablets saw a spike in demand in 2020, with further growth in 2021, as innovation was high, with many manufacturers responding to the emerging trends based on new consumer profiles and consumption habits. This benefited the packaging unit volumes of aluminium foil, flexible paper, flexible plastic, and folding cartons used in tab...

Euromonitor International's Confectionery Packaging in Spain report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
