Abstracts

Consumer electronics in Israel is set to record another solid performance in volume terms in 2023, with growth expected to be up marginally from 2022. Together with a rapidly expanding population and sustained growth in the number of households in the country, the fact that the local economy has rebounded strongly from the impact of the pandemic and proven fairly resilient in the face of subsequent shocks created by Russia's invasion of Ukraine and the global spike in inflation has helped to buo...
