Abstracts

In 2022, confectionery packaging saw a second year of rebounding sales after a poor performance in 2020, during the first year of the pandemic, which helped drive volumes above the 2019 level. In 2022, plastic pouches witnessed an increase in pack type share within confectionery. This is because they are a cost-effective packaging option, which appeals to both confectionery manufacturers and consumers. As they are comparatively inexpensive to produce, they help keep the price of the overall prod...
