Abstracts

Consumer health in Finland is seeing moderate current value growth in 2023. On one hand, prices have increased due to inflation, but, at the same time, the poor economic outlook has made consumers cautious in their purchases. Overall, the OTC segment is performing more poorly than other areas of consumer health. This is largely due to the fact that sales of several high-sales categories peaked during the heavy cough and cold season in 2022, as consumers returned to normal social interaction foll...
