Abstracts

Inflation is a key factor influencing the consumer health market in Greece, with price hikes being seen across most categories. Even though increases in prices vary by brand, most products have been subject to hikes. This has not had the same effect upon all categories, however. In the cases of analgesics or cough, cold and allergy (hay fever) remedies, there have not been significant changes in consumer behaviour. Even though inflation has been affecting not only consumer health retail prices,...

Euromonitor International's Consumer Health in Greece report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Allergy Care, Herbal/Traditional Products, OTC, Paediatric Consumer Health, Sports Nutrition, Vitamins and Dietary Supplements, Weight Management and Wellbeing.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
