Abstracts

In general, consumer health in Kazakhstan is performing well towards the end of the review period. However, high inflation, increases in the costs of raw materials for the production of medicines and changed or disrupted logistics/supply routes have exerted upward pressure on prices. As a result, retail current value sales are outpacing retail volume sales in growth terms across the industry.

Euromonitor International's Consumer Health in Kazakhstan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Allergy Care, Herbal/Traditional Products, OTC, Paediatric Consumer Health, Sports Nutrition, Vitamins and Dietary Supplements, Weight Management and Wellbeing.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Consumer Health market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
