## Abstracts

Consumer health in Latvia continues to recover from the pandemic in 2023, with major categories seeing demand patterns rebalance as lifestyles shift back normality. Economic uncertainty is prevailing with inflation remaining high in 2023, a trend that has evolved since the global energy crisis and war in Ukraine unfolded in 2022. Inflation remains high and this is contributing to strong current value growth in 2023. A significant proportion of consumers in low income groups have re-evaluated the...

Euromonitor International's Consumer Health in Latvia report offers a comprehensive guide to the size and shape of the market at a national level.
