Abstracts

Pakistan's economy continues to struggle and the government secured a further USD3 billion bailout with the IMF in July 2023, avoiding an impending default. Inflation continues to be very high and is being driven by several factors, including international commodity prices, global supply disruptions, flood damage to crops, currency depreciation, and political uncertainty in the country.

Euromonitor International's Consumer Health in Pakistan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
