Abstracts

Consumer health is set to maintain solid current value growth in 2023, with increases across most categories. Analgesics, and cough, cold and allergy (hey fever) remedies are expected to remain the largest OTC categories. Due to their maturity and product shortages in 2023, they are expected to see below-average increases within overall consumer health, but the influx of visitors for Hajj and Umrah will help maintain growth. NRT smoking cessation aids is the only category expected to see current...

Euromonitor International's Consumer Health in Saudi Arabia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
