Abstracts

Consumer health in Tunisia is facing a complex landscape characterised by several factors in 2023. Firstly, the global economic crisis has had a significant impact on the demand for consumer health products. With the cost of living rising sharply due to the impact of elevated inflation consumers are showing more caution with their spending, leading to a decrease in overall consumption across various industries, including consumer health. Additionally, the financial issues being faced by the Tuni...

Euromonitor International's Consumer Health in Tunisia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
