Abstracts

The most significant development in 2010 is that credit openings have decreased in number, whereas all other consumer lending forms have shown recovery and steady growth. This indicates that banks and credit card companies have, as a result of the credit crisis, become more conservative in giving out open credit and attach more importance to securities in case loans are not paid for. This indicates a strong separation between loans based on often tangible securities such as mortgages and loans...

Euromonitor International's Consumer Credit in Belgium report establishes the size and structure of the market for ATMs cards, smart cards, credit cards, debit cards, charge cards, pre-paid cards and store cards. It looks at key players in the market (issuers and operators), number of cards in circulation, numbers transactions and value of transactions. It offers strategic analysis of sector forecasts and trends to watch.
