Abstracts

As the popularity of digital trends increases, populations that suffer from myopia and presbyopia continue expanding. Hong Kong has the world's highest incidence of myopia with 75% of the population affected. This is largely due to the ever-growing technology engagement deeply engraved into consumers' lifestyles. People of all ages are connected to online platforms throughout everyday life, and frequently checking news, social updates, online messages and e-mails. Smartphones and tablets have...

Euromonitor International's Contact Lenses in Hong Kong, China report offers a comprehensive guide to the size and shape of the market at a national level.
