Abstracts

Convenience stores were enjoying strong dynamism before the pandemic, driven by Tambo+'s aggressive store opening plans and by Oxxo's entry into the Peruvian market in 2018, with this player also investing in a significant number of store openings in Lima. This dynamism was reflected in spectacular sales growth in the years prior to the pandemic.

Euromonitor International's Convenience Stores in Peru report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
