## Abstracts

Alternatives to paper payment have the potential to positively impact all actors involved in the payment process, from governments to consumers. Regulation and policy aimed at realising the efficiency gains and cost reductions has developed at varying pace around with world. Taking into account the characteristics of local consumers' behaviour, as well as identifying the leading barriers to paper alternative use, can increase the probability of a successful payment policy being developed.

Euromonitor International's Converting Paper Payments global briefing offers insight into the size and shape of the Consumer Finance market, highlights buzz topics, emerging geographies, categories and trends as well as pressing industry issues and white spaces. It identifies the leading companies and offers strategic analysis of key factors influencing the market. Forecasts provide an invaluable perspective on market evolution and the criteria for success. The briefing leverages Euromonitor International's 360-degree coverage of the global payments' landscape including insight on consumer debt.

**Product coverage:** Consumer Lending, Financial Cards and Payments.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
