Abstracts

2022 was an extremely challenging year for cooking ingredients and meals in Chile, and the economic effects experienced in the country during that period are still relevant in 2023. Despite consumers' anticipation of an improved economic landscape after the effects of the country's vaccination campaign against COVID-19, the war in Ukraine disrupted expectations, and its impact remains present in the economy in the form of strong inflation rates and high production costs.

Euromonitor International's Cooking Ingredients and Meals in Chile report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.
