## Abstracts

In 2023, inflation has begun to subside in Guatemala although retail price inflation continues to impact the basic food basket. Lower prices of some imported goods, regulatory interest rate policies and reduced agricultural production costs have collectively contributed to this decline in inflation. However, despite these developments, certain products within the cooking ingredients and meals category continue to face price increases. This is particularly evident in products reliant on imports,...

Euromonitor International's Cooking Ingredients and Meals in Guatemala report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
