## Abstracts

Cooking ingredients is expected to register moderate current value growth, but volume growth is expected to be minimal. Continuing economic uncertainty as a result of Russia's invasion of Ukraine, the meteoric rise in inflation and tightening monetary policy, all have a dampening impact. In particular, inflation is expected to still be an issue, though its growth is expected to ease. As a result, consumers are expected to be highly price sensitive and prioritise value for money.

Euromonitor International's Cooking Ingredients and Meals in Lithuania report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.

Product coverage: Edible Oils, Meals and Soups, Sauces, Dips and Condiments, Sweet Spreads.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
