## Abstracts

During 2022, sales of cooking ingredients and meals in Uruguay were negatively affected by various background situations. The country's new food labelling laws, which were enacted in 2021, have had a negative impact on sales across numerous categories, not least soup and stock cubes and powders, with the notorious black octagons that must be applied to the packaging of products containing high levels of sodium discouraging many consumers from buying these products.

Euromonitor International's Cooking Ingredients and Meals in Uruguay report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2026, clearly indicating how the market is expected to change.

**Product coverage:** Edible Oils, Meals and Soups, Sauces, Dips and Condiments, Sweet Spreads.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
