Abstracts

Consumers have been returning to doctors' surgeries in the post-pandemic landscape, thus hindering the sales of OTC medicines which they are instead accessing via prescription. This is noted to be the case with antihistamines, for example, along with paediatric variants. Indeed, while the return to out-of-home and sociable lifestyles did bring about a rise in seasonal allergies, along with common colds and coughs, consumers are once again more likely to visit their doctors instead of self-medica...
